

**Kimberly Gee** is a Korean American children's book author and illustrator of seven picture books to date. Before she began making books, she worked in architectural design and owned a greeting card company. When she's not creating and living the dream, Kimberly enjoys taking "idea hikes" and hanging out with her family.

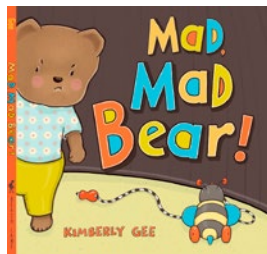

**I LOVE** to draw character-centered books for toddlers and little readers. I swoon for cozy, homey details, like backpacks, lunch boxes, and toys.
