

**Arancha Perpiñán** is an illustrator from Spain with a background in engineering and graphic design. Her vibrant illustrations and heartfelt scenes can be found in more than ten published books. She spends her time running her illustration business, tending to her houseplants, and hanging out with her family.

I LOVE illustrating heartwarming, inspiring, and funny stories, especially if they involve unicorns, little witches, talking animals, or quirky characters. I enjoy playing with color and adding hidden details to explore.
